

08-Dec-2010 4€ CRUCC 2.4 is the best software ever developed to calculate the car audio serial code (anti-theft system) in the car audio market. [Image: delco.gif] This software is the result of years of research and development. With this program you can calculate the code sequence for any vehicle and determine the most appropriate coding method for your vehicle. With this program you will be able to build and print your own keys. You will be able to build your own code sequences without using a computer. You can do it in seconds.
