Google Play reviews now use Google+ so it's easier to see opinions from people you care about. New reviews will be publicly linked to your Google+ profile. Your name on previous reviews now appears as "A Google User". Google Play reviews now use Google+ so it's easier to see opinions from people you care about. New reviews will be publicly linked to your Google+ profile. Your name on previous reviews now appears as "A Google User". Reviews Amazing! I love this! I haven't tried any other Android apps to "learn" a language, but this one really takes the cake for me. I love the pop up feature that I use on word of the day, and I love the feature that I can just "look up" the translation. This is the best for learning

SlovoEd Deluxe English-Russian is an easy to use program for learning and for translating words in English or Russian. It is a useful software solution that allows you to learn a new language, translate words into English or Russian, take quizzes to evaluate your progress and use the pop-up translation feature. -- Learn a new language easily - Types of dictionaries: simple or advanced; US or UK; Grey or white; clean or compact; a dictionary for beginners or a dictionary for advanced users. This choice depends on the level of your learning and on your choice of dictionary. To read the dictionary content, you can use the note-taking feature or the tab menu that you can use to browse the dictionary itself. Learn a new language quickly - auto correction, while you type; pop-up dictionary and translation, when you hover over another word; pop-up window with translation, when you hover your mouse over the word in another application; speed learning technology, with which it makes the learning of your vocabulary even easier. It is useful for young people and for students of English as a foreign language (EFL) or Russian as a foreign language (RFL). Look your best - import words from your computer into SlovoEd. You can add words to the word list directly from your computer, browse the dictionary from the menu, or use the note-taking feature to write down words. It includes a separate word list for beginners, intermediate and advanced users, with very simple words. The different levels offer you different spaces to write down words, to organise your words in categories, and, of course, to create your own categories. Take quizzes and bookmark words - You can take a quiz for beginners and, when you complete it, bookmark the words, categories or categories (B) for future reference. You can look at words and find similar words to those you have already learned, or you can even see how you compare with people of other countries. It comes with an advanced algorithm for remembering words and words are grouped by similarity. You can choose one of the dictionary themes and you can also create your own. It also includes a theme with a rainbow background. Using the word list, you can easily remember words that seem difficult to remember. You can use the menus, the buttons, the categories list in the note-taking features, and the tabs menu to change the order of words alphabetically and by category. It comes with a very useful auto-correction feature and
