

If you always thought it would be nice to have an app that works just like the notes and to-do apps that we rely on when on the go, it's time to turn your thought into reality. With nvPY, the line between your thoughts and notes has vanished. Features of nvPY • Work anywhere at any time • Create, synchronize, search, share notes with the press of a button • Synchronize your notes with Simplenote • Work with Markdown notes (no need for Markdown markup) • Render Markdown to HTML • Markdown to HTML every five minutes (free version) • Create Markdown notes with all kinds of random characters • Convert notes to hand written notes • Render reStructured Text to HTML (Textile, reST) • Work with Sublime or Visual Studio Code • Use Emoji characters, it will be converted to the corresponding Unicode characters • Add bookmark links to notes and even sync with Simplenote • Ability to add tags to the notes • Simple and intuitive user interface • Simple and intuitive keyboard shortcuts • Fast, native, no third-party dependencies • Full, free, no ads, no hidden charges P.S. PLEASE NOTE: The free version of the app includes limited features. You will be prompted to upgrade once per week. If you want to unlock all features, you have to purchase the app. Don't hesitate to contact us at support@nvp-y.com if you have any questions regarding the app's pricing. What's New Have you ever dreamed of keeping those favorite travel places on your computer's desktop? We have good news for you. nvpY can live on any computer desktop, irrespective of the size or any other specifics. The app will automatically download and install a virtual desktop In the first stage, you will see your favorite places on the desktop. If you want to switch desktops, just click on it. If you find that nvpY has not enough real estate to fit all your favorite locations, you can save them on the desktop. You can even apply a new location to a current desktop. There are many reasons why you should install nvpY on your computer. It can act as a home screen to keep your contacts, phone numbers and even the web address of your favorite websites in one single place. If your computer has

What's New In?

nvPY is a mobile personal note taking app that can be used as a simple note capturing tool or as a complete note app. The app allows you to capture text and images on the fly, add tags to the text, add URLs and e-mails to the notes, and synchronize the notes from the nvPY application directly with Simplenote. Features: ----- - capture text and images on the fly - attach tags to the captured items - add URLs and emails to your notes - send notes by e-mail - back up your notes - sync your notes automatically with Simplenote - use keyboard shortcuts to add/edit/delete/modify your notes - customize the application to match your style - create your own notes quickly and easily - sync your notes with Simplenote - render reST to HTML - fullscreen mode - search notes - copy to clipboard - word completion - in app purchase via inapp purchases (iAP) - iPad Support Installation: ----- The mobile version of nvPY can be installed on an iPad or iPhone device, but it requires iOS 4.3 or newer. Simply download the app, connect your device to a WiFi network, sign in with your Google credentials and start capturing notes immediately. Before installing this app, we would recommend to use the free version of nvPY (Google Play Store, AppStore), in order to get acquainted with the app and its many features. nvPY description: Picking the right note taking app for your needs can be a daunting task. For example, you may want to be able to take notes with a simple method, but also be able to prepare them for publishing. You might also want to share these notes with your colleagues or friends. At the same time, you would like to be able to search your notes in case you would ever need them. In a nutshell, you need a note taking app that fits all your needs. For more info about nvPY, or any other note taking app, check out my blog on the matter: Protective effect of aspirin in atrial fibrillation: recent evidence. The clinical concept that inhibition of platelet aggregation represents the cornerstone of anti-thrombotic therapy for most
