THE ELDEN RING GAME CREATION SYSTEM

The game's creation system was redesigned from the ground up, with the goal of creating and creating a new system that would allow for an easy flow of games. To aid in that goal, the game's system was changed from three traditional game-creation systems to one new system that covers a variety of genres. The system consists of the following three aspects:

- A Map System A boundary line is placed on the real world, and that is expanded into a map. You can travel between the map and the real world freely, and interact with other players, NPCs, and enemies.
- A Battle System Battles are dynamically generated on the map, and you can freely traverse the map and fight against enemies.
- A Magic System Magic spreads through the world, and you can fight against enemies with the use of magic.

As a game, we aim to offer a variety of maps and battles. We intend for players to enjoy the variety of battles and game play, and to experience a strong sense of accomplishment even if they play for a short time. We aim to enable players to experience a wide range of joy while playing ELDEN RING, for example:

- As you become stronger and stronger in PvP battles, once you defeat an opponent, you can enjoy an exhilarating out-of-match funfight.
- As you explore the vast map,
