Published by Electronic Arts Gameplay Unique Features: FIFA 20 includes innovative gameplay features as well as a new season of innovation and fundamental gameplay changes. Intelligent Player Motion: FIFA 20 features intelligent player motion for each player making them more realistic and explosive, including enhanced awareness and anticipation. New Pressing: Key actions during gameplay – such as pressing the L1/R1/2/LT/RT buttons – will activate a new set of contextual interactive behaviours. As well as training and real-life pressing techniques, players will also exhibit the classic pressing style of these buttons. Substitute Support: The game will use footage of a substitute player that is delayed slightly – allowing for substitution decisions to be made more quickly during gameplay. New Passing Styles: New passing styles have been introduced for the first time in FIFA history to help football match's flow and create faster attacking transitions. New Movement Mechanics: FIFA 20 will feature improved movement mechanics to players and the ball, adding more agility and awareness to positional play and transitions. FIFA 20 introduces improved shooting mechanics with player control over every aspect of the shot, from deflection to speed. Teammates: Teammates will exhibit more believable movement patterns, influencing each other's positioning and movement in the game. New Player Control Mechanics: Players will have more and more control over the ball, and every action – dribbling, passing, shooting, etc. – will be done in a more fluid and natural manner. Speed Control: Players will now have much more control over speed and acceleration, making every shot goal-worthy. New Skill
