- Close all pages (Or open new tab)
- Print selected page
- Save current page to

Favorites Comodo Dragon Free is a free anti-spyware program that uses a machine learning technology to identify and remove spyware from your system. It has many built-in components for automated threat defense, along with other features to help protect you against spyware infection. You can access those components with simple menus, or add them on the fly. The latest 3-D

visual interface helps you to manage your settings, simplify your setup, and achieve more in a shorter time. This freeware program includes a trial version. Main features of Comodo Dragon Free:

- Built-in Intrusion Detection Engine - Dragon looks at how data moves through your PC, to look for hidden threats on your hard drive.
- Powerful Spyware Search - Dragon's built-in spyware search tool hunts

down and removes threats in less than 60 seconds, or it can quarantine a suspicious file. □ Powerful Threat Defense - Dragon examines the location of files and executes some of its tools even when the mouse isn't hovered over them. □ Complete Package - An intuitive interface offers everything you need to keep your PC running comfortably free of threats, without having to spend time fiddling

with options. □ Icon Set - All the icons are in the same set. Check Point is an easy to use antivirus protection software for Windows operating systems. Check Point delivers smart and innovative antivirus protection for modern browsers, email and messaging clients, file sharing applications, and operating systems. Besides running as a stand-alone antivirus tool, Check Point

also enables network administrators to protect corporate networks by leveraging its Secure Web Gateway. Check Point can be used as a standalone antivirus tool, can be integrated with multiple web applications, or as a gateway for detection and intrusion prevention of both web and local threats. Features of Check Point: □ Smart Browser Protection
