A hardcore PC game of survival and deception, “Home Behind” is a multi-layers sequel to the all time popular “Home Behind” and unique mix of risky solo gameplay, fierce strategic multiplayer, and a free card-collecting meta-game. It can be played alone or in free-for-all multiplayer mode, and it can support both local network and online matchmaking. — New Occupation: Comedian The “comedian” is a game-specific occupation to display a nice card like “Just start-up”, “Knock-out” or “Resurrection” on the skill screen to instantly give you additional base cash. Each zone comes with more challenging encounters, tougher survival conditions and tougher monsters. But it's not the end, you will need to play on to save up enough card shards! Each zone comes with a boss encounter. The boss is not a regular hazard but a unique monster, your efforts to beat the boss will determine the difficulty of the next level.
