The time has come. The good and the evil are both a thousand years strong. Still, it doesn't last. The game is changing in a more dangerous and disturbing way than ever before. The days and nights were divided into three sections. At dawn, the fog turned a murky blue. In the same period, the Tower's aura began to be fueled by evil. In the evening, darkness enveloped the city. During the next night, the tower will be on fire. As it is with every city, crime is unavoidable in Oaksville, but the situation has gotten worse over the recent years. It was bad

enough that most of the wealthy residents have left, fleeing for greener and safer pastures. Without the income or taxes from those people, the city cannot afford to maintain the size of the existing police force. Therefore, with great pain, they downsize the cops to less than a quarter of their previous number. Without most of the cops, the crimes have increased and the situation on the streets has gotten more chaotic as various groups struggle for dominance. At present, whatever your past and reason is, you have decided to fight back with a group of people dissatisfied with the

current situation. How will you fight? Whom will you let into your posse? And what future will you decide to pursue? That's up to you, leader. Welcome to Street Posse Showdown. Highly Tactical Battles. Mission-Based Gameplay. Full Party Creation At Start. Character Job System. No Permadeath. However, Injuries Are In. Replaceable and Relearnable Techniques. Faction Knowledge Is Crucial To Success. Single Player Story-Driven Campaign. Combat & Dialogue Log Included. Changeable Clothing. About The Game: Join the gang and take over the post-apocalyptic valley. You are a survivor

trying to find a better life in a place overgrown by hostile creatures. Your goal is to stay alive, accumulate wealth and take over the post-apocalyptic valley by yourself, build your own city. There are many things to do to get different levels of wealth. There is a lot of work to be done. It is not the end, because there's a story of your past left behind. DEVELOPMENT: I'm a fan of minimalistic games and this first batch of level has an impressive amount of numbers - To put it in a nutshell, this game uses over 400 unique sprites for the levels. I designed the graphics engine from scratch and

made sure that it scales well on all screen sizes and that it works perfectly on mobile devices. The web version of the game has been tested on all major browsers and I'm pretty certain that it works just fine. DEVELOPMENT REQUIREMENTS Since this is a minimalistic game, there are no "bloat" features such as skylights, lighting, etc. I will add this game to Google Play and Apple Store in the next couple of days.

What's new in Tainted Grail: The Fall Of Avalon:

_ When the body of a fae child was discovered near a mausoleum in a churchyard, Detective Inspector Adam Frost was assigned to investigate. Although he was familiar with the area, it wasn't until he discovered a key missing from the mausoleum that he realized it was the place he was**

searching for. The more Frost discovered, the more he realized that the person who committed the murders had been framed for the crimes. And soon Frost would discover that the killer and the victim were far more closely tied together than the police had ever imagined. **Look for Hannah Howell's Tainted Grail sequels:** **_"Closest to the Sun"_** **_"Tainted Dawn"_** **_"Tainted Fate"_** **Hannah Howell can also be found at** : **www.hannahhowell.co.uk** _The mystery surrounding the missing key was like a loose thread in a tapestry._ _Something that needed to be pulled to reveal the clues hidden underneath._ _I could almost hear every person in the room as I went through the actions I needed to do to find the missing key._ _The more I discovered, the more I was certain that it was the killer I was looking for. But how was I so confident of that? How could I be so sure?_ _I suppose my subconscious abilities were getting a second wind. They'd been asleep for so long, but I could now feel them coming back to me, and they couldn't do that without an eventual return of use._ _I searched the room, then the desks and computers._ _In the bloodstained tapestry that hung behind it, another key was tucked behind the rose-petal-shaped button._ # 1 "****!" The car slid on to its side, its tyres shaking, the springs screeching in protest. Alarmed, I tried to right it, but the large box containing the music gear out of my bag was too large. I tried to lift it, but it weighed a ton. "Get it off me!" my mum yelled and rolled the car back on to the road. The feeling of reprieve was short-lived. Within seconds we hit a bank of black ice, and my legs were

flung from the car. The box with my guitar and amp hit
