Starting with the empty canvas When you open Photoshop, you see a blank slate or canvas onto which you can place images. The empty canvas provides the most basic interface for creating and manipulating images. The placement of your image files on the canvas is controlled by the application's File Handling module. To create and edit images, you need to open either a raster-based image file or a file of vector graphics. You can open the file into the Canvas workspace of Photoshop

CS6, but you can also save the file to the hard drive, and then open it elsewhere later. Think of a canvas as a window into your image file. You use the image within the window. Depending on the type of image you create, you place commands on a canvas, such as special effects and then save the file with a different name. When you use special effects such as layer styles and gradients, the canvas tools enable you to modify certain areas only when they're selected. For example, you can change the fill color of the layer only when the color box is checked on the Layers panel. After you complete your work, you close the image and use the Share panel to share the modified image through social media. If you open an image in Photoshop, you see the following display: On the left side of the window you see the Layer panel, which is used for creating and editing individual layers within the image. The image is displayed on the right side of the window.

M.K. Fathima M. K. Fathima (16 September 1953 – 14 May 1994) was a poet, author, editor, and activist from the Indian state of Kerala. She was born on 16 September 1953 and died of cancer on 14 May 1994. She was one of the leading female writers and political activists in Kerala. She was the co-founder of the Akademi (Academy of Political Arts) and introduced radical literary experiments to the Malayalam literary scene. Early life and education Born on 16 September 1953 in Kollam, a town in Kerala, into a well-off and educated family, M. K. Fathima was sent to study in Delhi in 1970, where she initially did B.A. and M.A. in Hindi. Later, she completed her Ph.D. in Hindi Literature. Career Fathima became a lecturer in Hindi in Delhi. She later became an editor of a Hindi magazine called "Tulsiya" and remained associated with the magazine for years. Her career was subsequently truncated because of her opposition to the Hindutva ideology and the police action against her for it. She was associated with the banned communist party of Kerala. In 1975, she became the General Secretary of the "Karaikudi" branch of the Communist Party of India. She was also involved in the communist movement from a young age. She was arrested several times for her activities related to communism. In 1993, she was arrested for campaigning against the Indian government's military action in the state of Assam. She co-founded the Academy of Political Arts (Akademi) in 1978. The institute aimed to further the radical and progressive ideas of the communist movement. Activities She was also a founder member of the Left Democratic Front. She was a political activist and was against the anti-people policies of the United Democratic Front government in the state. Her activities and campaigns led to her being arrested several times. She was also a founding member of the Communist Party of India (Marxist-Leninist) Liberation. In 1987, she was imprisoned for her activities. She was declared an "unlawful" by police, after the inmates of the Makkala Sahib jail published a book that she was being held in custody. She was the Managing Editor of Thintakkulam, an evening Malayalam newspaper. She worked in the paper till her death in
