Narrative ELDEN RING game: Mastery ELDEN RING game: Character ELDEN RING game: • The Magic Treasure of the Elden Ring • Crouch to Subdue Enemies • Battle Friends and Enemies in Multiplayer Play Demo The scenario 1.Unlock the World The days of the Elden Ring's power have passed. The land that once had a thousand kingdoms now has but a single kingdom. To prevent the end of all life, a powerful entity known as the Ordinator appeared and banished the people of Elenia back to the Lands Between. As children, Elenia and her friend Narelle disappeared during a visit to the Everfall, while searching for the forgotten spectacles of their ancestor. Seventy-seven years later, Narelle decided to return to Elenia with their old friend, Allea. She had been unable to find her friend in the past decade, but was determined to bring her back. In the process, they lost track of Elenia. The City of Elezen, the one place in the Lands Between that provided Elenia's sense of direction, was also being absorbed by the Ordinator's plan to create a "child who leads this world into oblivion". While they were searching for Allea, the city was completely taken over by the Ordinator. Feeling alone, they split up. Allea went toward the North and North-East, while Narelle went to the South. As Narelle traveled, she was attacked by the Ordinator. After falling into a pit, she was taken in by the Ordinator's legions of black-clad minions. Allea was also kidnapped by a group of minions who looked similar to Narelle. They were attacked by the aforementioned Ordinator. As Allea and Narelle fought to escape, Allea was forced to retreat. Seeing the Ordinator turn back to Allea, he ordered that she not be allowed to leave. Allea was soon taken by Ordinator as a prisoner. Narelle and the minions had their minds and wills slowly tampered with by the enemy. They began to chant, "Ordinator, give me the power of the Elden Ring", and then were fully controlled by the Ordinator's Dark Voice and became servants of the Ordinator. The minions and Narelle used
