This significantly reduces the amount of time needed to design a PCB. The Cadence Allegro suite now supports LPSL EAGLE format files. LPSL files are basically spreadsheets with EAGLE format cells, allowing to create a distributed schematic that can be assembled to create the LPSL file, and reused for future projects. LPSL is also a scalable format that can be exported to the LPSL format of many other software packages Speed Up your design workflow and reduce time spent on rasterizing patterns. Unlock the power of the new Orcad 16.6 with our new Templates. Time-saving and easy-to-use tool helps you quickly create perfect bare board designs with no need to waste time rasterizing.
