Sometimes, however, even the best efforts at marriage and parenthood may not make up for one spouse's mistake. Some people argue that, in these cases, the innocent party should be forgiven. But, even if you agree with them, forgiveness is not easy. You will have a hard time forgiving your partner, in the event that he or she cheated on you. After all, they broke their sacred promises with you. You will also face a hard time forgiving yourself, because you knew of the risk of infidelity and went ahead with the marriage. The even harder part will be forgiving others. Forgiveness is not just for your partner. You will have to forgive your mother, father, siblings, and friends. If your spouse has admitted his or her infidelity, it will be easier for you to forgive him or her. You will know you can trust your partner again. If your spouse has kept his or her secret, it will be more difficult for you to forgive him or her. You will have to do a lot of inner work to discover whether you can trust your partner again.
