Ease-of-use Functionality Product Quality Customer Support Source: A: I've had great success using Docebo's story board to help me structure my scripts. They also offer a free 30-day trial which should satisfy any quibbles about their price. A: There are lots of story-boards available for free online. I suggest that you try creating your own to help structure your script. Q: Generate a random string with specific characters I want to generate a random string with specific characters. First of all, I use the following command to generate a random string, srand (time(NULL)); string s=""; for (i=0; i 32) && (j 0 && j < 128)) { s[j]=chars[i]; } } If you only want alphabets and numbers you can just use this : string s=""; for (i=0; i
