If you already have an older version of Ardour installed, you'll need to manually uninstall it before starting the new installation. This theme is compatible with Windows 8. KEYMACRO Description: - Windows 8 Compatibility Winscribe is a free note-taking and information-management program. It can be used as a replacement for a personal information manager (PIM) such as Microsoft Outlook or the Apple iCal. It supports all major application formats, including EML, EPUB, HTML, Plain Text, LaTeX, PDF, RTF and text file formats. You can even save the output to HTML or PDF. While many note-taking applications are somewhat similar, Winscribe has several unique features, such as: * Takes advantage of the Windows Start Menu, to make it very easy to start applications, find information, and perform other tasks * Supports note-taking and information-management tasks in one place * Contains many features for powerful and easy-to-use text editing * Great for use as a replacement for a PIM * Support for exporting notes and other files in a variety of formats * Various skins for the application Winscribe supports Microsoft Outlook and Microsoft Exchange accounts. Winscribe uses the OpenOffice.org office suite, but it doesn't rely on any of the bundled files or the files installed with OpenOffice.org. W 2edc1e01e8

Installing this theme is as easy as can be: you just have to double-click it and you'll get your new desktop up and running in just seconds. I installed this and it seems to work. I see it during a 'trial' that lasted just a moment. I then got up for a break and came back to see that it had been replaced with the Sunset Over Superior theme. It was at the bottom of my list of themes. Is this a bug or am I missing something? Thanks for the help so far.
